

Why our training service?

Gain confidence in maintaining your ISO with a professional training course

By using our training service, you can access training tailored to your business and ISO needs, featuring real-life examples and exercises to help your team gain a deeper understanding of your ISO(s) and how to manage them.

With our training services your business can:

- ✓ Gain a deeper understanding of ISO certifications
- ✓ Learn how to implement best-practice methodology
- ✓ Learn about key concepts and principles

Training above and beyond...

Choose an additional day of training to give your team more detailed knowledge combined with additional practical exercises to ensure greater success when implementing and maintaining your ISO(s).

What's included	One Day	Two Days
Overview of ISO requirements	✓	✓
Prepare an internal audit schedule	✓	✓
Plan and prepare an internal audit	✓	✓
Gather objective evidence	✓	✓
Discuss findings and write audit reports	✓	✓
Describe the processes for corrective action, follow-up and management review	✓	✓
In-depth training on processes for corrective action, follow-up and management reviews		✓
Up to 10 practical activities and role plays		✓
A live internal audit from the audit schedule		✓

Need to double up?

If you have more than one ISO to cover with your team, why not double up and reduce the time required?

The shared aspects of the ISO 9001, ISO 14001 and ISO 45001 Standard can be aligned to transform a four or six-day training course into a three-day intensive learning session, saving you time and money.
