

# Why the Business Continuity Solution?

## React confidently and cut downtime with a 360-degree continuity solution

By choosing to introduce our bespoke Business Continuity Solution, you can give your business the tools and processes it needs to react quickly and confidently to business disruption, reducing your recovery time and protecting your critical activities.

### With the Business Continuity Solution your business can:

- ✓ Maintain critical activities during times of disruption
- ✓ Ensure early and decisive action from key personnel
- ✓ Create processes to keep your staff safe and healthy during an emergency event
- ✓ Mitigate any potential financial loss
- ✓ Build customer trust in your resilience and enhance your reputation
- ✓ Pave the way for future ISO 22301 recognition (Business Continuity Management)

## Stages of the Business Continuity Solution

### Identification

- Two-day consultation
- Gap analysis report to evaluate the gaps in your disruption planning

### Plan

- Business impact assessment
- Evaluation of the outcomes of disruption

### Maintain

- Key supplier lists
- Threat and risk assessment matrices
- Recovery locations

### Access

- Access to QMS Connect
- Download and save your reports in a secure location

### Create

- Bespoke business continuity plan to help your business stay up and running

Created using a detailed gap analysis report, business impact assessment and the guidance of experienced consultants, your bespoke business continuity plan will give you the tools you need to tackle disruption with minimal downtime.
