

# More than just certification

Our market-leading approach ensures you are provided with the tools and support you need to achieve certification with minimum hassle, but a great management system requires an ongoing commitment. This is why we have developed a range of services to help you ensure your management system continues to be an integral part of your day-to-day operations:

## Consultancy

If you require help implementing your management system or you would like a consultant to review your existing management system or processes, we have a team of experts, experienced in a range of industries, ready to help.

## System upgrades

If your existing management system(s) are certified to an older version of the Standard(s) or your current ISO provider(s) are no longer meeting your business' needs, let QMS upgrade your system using our simple three-stage process for minimal hassle and cost.

## Third party management

You may not always have the time or resources to run your ISO management system in-house. On a temporary or permanent basis, our consultants can help you. From internal audits to non-conformity management, we will ensure you continue to meet the requirements of your chosen Standard.

## Training

If you are new to management systems or simply looking to refresh your knowledge, our courses will ensure you achieve the desired results, at a time that suits you.

## Going the extra mile

In addition to our wide range of certification services, QMS can also help you with many other critical business areas, including:

### QMS eLearning

Keep your team's skills up to date and maintain compliance in your business with more than 140 eLearning training courses, to be taken at a time and place that suits your business.

### Health & Safety

Health & safety is vital for the wellbeing of your workforce and customers. Let us take the confusion out of H&S compliance for you.

### Business Continuity

Meet disruptions head-on and take action quickly for a fast recovery with our 360-degree solution, which will equip your business with all it needs to keep running, no matter what happens.
